How to read this report

Each section opens with a short summary, followed by the detailed data pulled directly from DVLA and industry databases. Green badges mean a check came back clear; amber badges flag an advisory item worth reviewing before purchase.

Data sources

DVLA vehicle register, MOT testing history, DVSA advisory records, insurer write-off registers, HPI finance records, and trade valuation panels, refreshed at the time of purchase.

Summary verdict

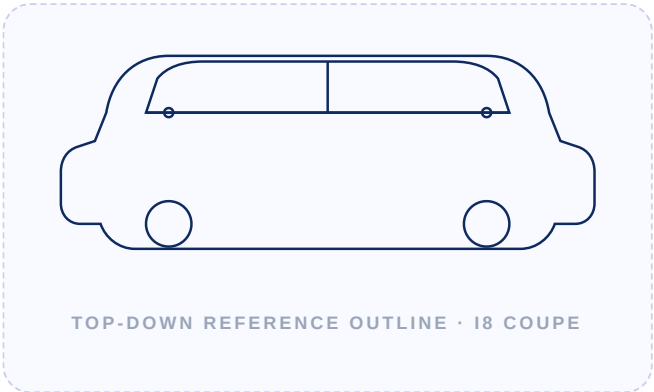

This BMW i8 has a fully clear finance, theft and insurance write-off record, with five consecutive MOT passes and no failed items. The only points noted across the vehicle's history are two tyre-wear advisories on the most recent MOT test — worth inspecting before purchase, but not a barrier to a sale. Mileage has increased consistently year-on-year with no irregular jumps recorded.
